

CEDAR WOODS – CEDAR WOULDN'T

**Cedar Woods
would save Shed 26
according to their plans
but Cedar Woods
became Cedar Wouldn't
& soon lost a legion of fans**

**we're all keen to see development
but sometimes heritage has to be taught
we want to keep our saw tooth roof
as a symbol of a real working port**

**our port culture was built under that roof
& we won't let it get knocked to the ground
so Cedar Woods need to see the light
we are up for the struggle
we are up for the fight
we are union strong
we have working class might
& we won't be walking away
no we won't be walking away.**
